Dear seller-performance team,

I think my account has been deactivated in error, because of the following causes:

First, this is the first time I' m trying to register a seller account on amazon.com with real entity.

And I think I'm following the amazon policy. But The Credit card overdraft due to my personal negligence.

Second, I have great expectations to do the best on amazon.com.

Please give me a chance to do the best to provide quality products to Japanese customers.

This is the selling plan: I plan to list over 50 listings on amazon.com all FBA.

I Plan to make over 500,000USD sales in the first year.

I will spend 10% advertising cost of sales over the year.

Please kindly note this case, and get my account start selling.

Thank you Sincerely
